

Clean Acres Recovery Housing

Communicable Disease/Infection Control Policy

The approach of Standard Precautions will be utilized by Clean Acres/New Housing Ohio and residents in the handling/disposal of hazardous materials and infection control.

1. First Aid Kits will be available at each site for use in cleanup of hazardous/infectious waste. Included in the kit is the OSHA Standard Precautions manual to provide instruction of appropriate handling of waste.
2. General sanitation procedures will be conducted in compliance with accepted Standard Precaution standards.
3. Staff is expected to report all infection/communicable diseases as required by the organization through the use of a Critical Incident Report.
4. Incidents regarding communicable disease will be addressed per Chapter 3701-3 of the OAC for complying with applicable Center for Disease Control Standards.
5. All residents and staff shall receive training regarding the prevention and control of infection and communicable diseases and the appropriate use of Standard Precautions.
