

Clean Acres Recovery Housing

Continued Care Agreement

I, _____, having entered the Clean Acres Recovery Housing program on __/__/__, agree to follow through with this Continued Care Agreement upon my successful completion of the in-house phase. I recognize that the assistance and help given to me by the many referral sources while living at Clean Acres was only the beginning of the solution and not the end of the problem. Given this, I know that I must receive continued care in order to increase my successful chance at life-long recovery, in a program of my choice.

I agree to continue to meet with staff on a regular weekly basis, (on a mutually agreed upon day) for 8 weeks to communicate my progress of my step work, sponsorship and meeting attendance, after exiting Clean Acres. This will allow me to continue to build support in my recovery.

Every resident that leaves Clean Acres, regardless of type of discharge, has done more for their recovery than they were doing prior to discharge. That is 100%. Both NA & AA suggest 90 meetings in 90 days. The day you leave this program is the perfect day to continue with 90 meetings in 90 days.

For those who choose not to remain in the Clinton County area, an alternative continued care plan will be agreed upon. All residents who leave the house successfully or administratively will complete a discharge plan. The plan development will begin at least two weeks prior to your discharge date.
